- intimidated about standing in middle of street
- how do you use the system?
- ART station feel safer

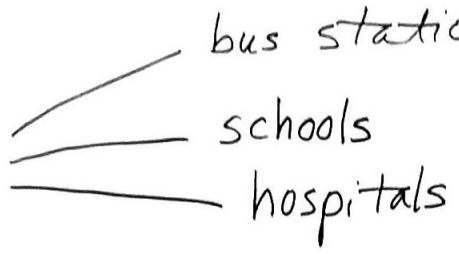

- Woman's safety: intimidated by sexual harassment in public

Space

- A person @ each station? Giving info? Making it safer
- Adopt-a-stop: volunteers to clean up stations
- Cameras: recording all the time... but not being watched * in real time
- Try to show friends that "bus is ok" ... but sometimes it's not

- Impossible to provide all info in all languages.
Instead, create resource centers around ABQ to
assist with access to info. in many languages.
- Lack of signage in different languages even in Int'l

- Rhetoric out of city hall needs to emphasize
multi-lingual access, atmosphere - inclusion
- How do we create a sense of community
across neighborhoods, classes, races, etc?
(while ~~we~~ we demand changes in policies & practices)
- Community-based efforts need to be met w/
city support.

- Need good asset-map of existing services, resources, etc. to see what's missing/needed.
- ABQ Ride needs to have multi-lingual app.
- Make it easier (less costly) ^{for refugees/immigrants} to get a license for the work they did in their home countries. They have the experience but not \$\$ to get licensed in U.S.
- Need creative approaches to multi-language access in ABQ.

Pedestrian Safety

Safe places to walk

+ dark?

traffic crossing
wandering guys at night

Lomas + University
multiple lanes
no place to cross
not enough time

Can't
walk to
bus because
of fear
of
CRIME

* We feel that our kids in middle-high school cannot safely walk to school (cnm)

"Unless you can walk safely, ^{you} don't have an urban environment" Cheryl

* Pedestrians need to take responsibility

no texting
no dark clothes
take precautions

* CROSSING CENTRAL IN NOB HILL IS DANGEROUS AND THE ART PROJECT HAS MANY MORE SIGNS LEADING TO DRIVER DISTRACTION, MORE

J:1 20FZ

What would help overcome fear and reluctance to walk?

- ① Better and more resilient striping for cycling and walking
- ② Lighting in downtown especially now when it gets dark early
- ③ Better lighting in International district and on underpasses
- ④ Improved crossing time
University - Lomas
" - central
Yale and central
Lomas and 2nd

Simplify

SPACES FOR WOMEN

Safety and girls

Night vs Day -

cycling → creates a sense of safety (but we need more support)
lanes, laws, support

~~Fun / Economic Development~~

Running - Time matters
Early before you are likely to get cat-called

More art → under bridges & dark places you have to travel

Older women -

Support street art - tap into local women's groups
house sharing prevents being isolated
network links

2 of 3

Shape-shifting
moment of #metoo

History matters

Culture that supports women
rather than one that
expects women to
accommodate.

Move moms & babies

match council
for programs
for girls

Move lights

- support interaction
across racial/ethnic
class, and age categories

How do we promote the
woman friendly spaces

* cycling friendly = pedestrian friendly = ^{woman} family friendly

(Look to other cities - what
are they doing to get people
outside?

Education / Mentoring

no man sprawl-like education
Campaigns focused on changing
hostile cultures (rather than
just focusing on making
women more resistant)

Public restrooms - that are
clean, well lit, don't smell,
in good repair

~~4~~ Immediate Next Steps

- work with local women's groups
to incentivize meeting in open spaces
(ie. food trucks!)
- provide feedback training to police on how they interact
with women → system needs to be changed for DV victims
- approach local groups & public entities for pro women
resources to support getting women outside.
- ~~create~~ create a central location for resources for ^{local} girls & women

Creative Placemaking to build Trust

Mapping Neighborhood Talents

Look at other municipal models

* Give Credit to those already doing it.
Trust doesn't happen when

We've segregated - Need to
approach segregation as an issue.

S.V. Skate boarder zone organically
site selected & built: Need to empower
that and care & maintenance of the site.
True sense of agency & dignity.

Storytelling helps to build Trust

We have a self esteem problem that we can change
but we're #1 in Team Spirit!

Generative Projects that

Take advantage of the Monsoon
Rains to "Grow"

Enable everyone to have a voice
w/ everyday interactions

Can Public Art Law be changed to
do more temp art initiated by
citizens?

Cultivate an abundance mentality.

Neighbors can identify their own
"Opportunity Sites". Opportunity Site
mapping!

Neighborhood events
Need to capture neighborhoods' ideas early in the
process to help foster efforts.

Being an Age Friendly City
by using City Centers for creative
expression ^{(using} World Health Criteria)
& multigenerational interactions.

* We need to better connect w/all
who are doing the same/similar
things.

Need better funding/infrastructure

Build on little partnerships to
realize the temporary Pop Up
events or installations

There need to be a "range" of
efforts

Trust includes forgiveness; How can
we have a reconciliation on a City wide
level?
